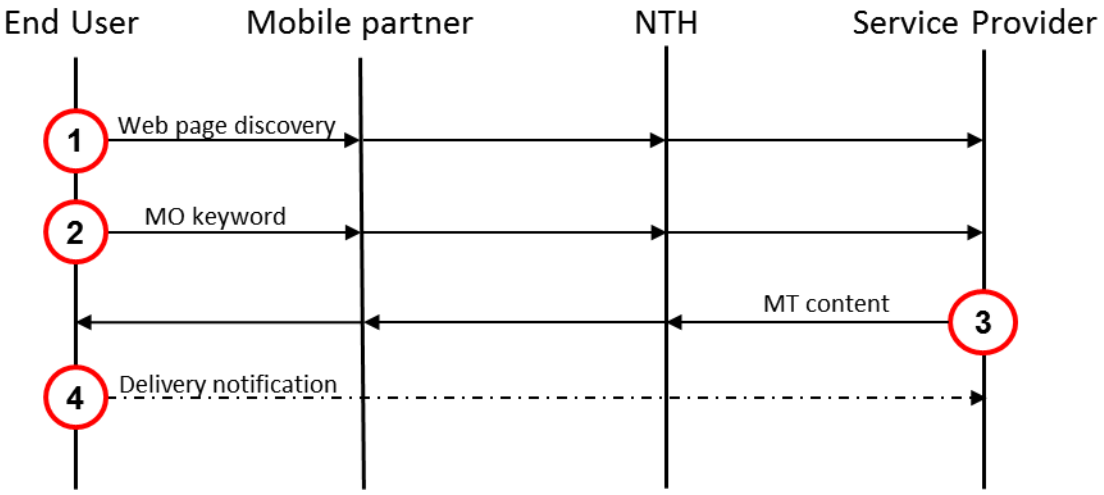
Service Program France
PSMS One-off – WebPayment (MT billing)

Table of Contents

1 Service Flow & Description 2
2 Advertisement, Message and Other Elements 3

1 Service Flow & Description



No.	Service Element	Service Flow Description	Rate
1	Web page discovery	End user discovers service on the web page where he/she is instructed to send keyword to short code.	-
2	MO keyword	End user sends message with keyword to the short code. Message is forwarded to Service Provider. **NOTE1: Operators in France do not send real MSISDN, instead encrypted MSISDN is forwarded to Service Provider. Encrypted MSISDN is valid for 2 months but user session is valid only for 24 hours.** **NOTE2: Billing on Orange is performed through money reservation on MO message and payment is confirmed with "premium" MT message. If no "premium" MT message is sent within 24h - money is returned to end user account.**	Standard
3	MT content message	Service provider sends message with content (for example payment code). Message is forwarded to end user. If required, user enters payment code on the web page in order to access restricted content.	Premium
4	Message delivery report	NTH receives delivery notification indicating status of MT message delivery state and forwards it to Service provider.	-

2 Advertisement, Message and Other Elements

Service program must comply with all valid regulations within the country. Depending on service there are different elements that must be fulfilled and archived/stored in case of customer or operator complaints. Below are stated and described all such mandatory elements.

Misleading advertisement is strictly forbidden.

End user prices

There is a limit of 50€ in total daily per user per short code that can be spent on premium services.

Service advertising

Webpayment service can be advertised on web page where user gets instruction to send message with keyword to the short code.

Following information needs to be provided when advertising the service (on the web page):

- Service name and short description of the service
- Service price each time short code is used:
  - Exactly in form "[price incl. VAT] EUROS par SMS + prix d'un SMS" or "[price incl. VAT] € par SMS + prix d'un SMS"
  - Pricing information must be clearly visible
- Customer Care hotline and e-mail (both in French)

Landing page

1. at the top of the LP: the commercial name and logo of the service

SMS+

TERMES ET CONDITIONS

Example of wording on the button

Example:	English translation:
VALIDER LE PAIEMENT	Confirm payment
CONFIRMER LE PAIEMENT	Confirm payment
ACHETER	Buy
PAYER	Pay
CONTINUER ET PAYER	Continue and pay
CONTINUER ET ACHETER	Continue and buy

Content message

In case the access code is supplied in MT message, it is not allowed to send a link with the code already filled in. Content message has to have:

- Pricing info in the form: "[PRICE] EUROS par SMS + prix d'un SMS" or "[PRICE] € par SMS + prix d'un SMS"

- Info that the service is NOT a subscription

Example:

"[Service name] - vous remercie pour votre achat.- Edité par [Customer name]

"[PRICE] EUROS par SMS + prix d'un SMS [cuc e-mail]" or
"[PRICE] € par SMS + prix d'un SMS"

"Ceci n'est pas un abonnement"

English translation:

"[Service name] – thank you for your purchase. Service by [Customer name]

"[PRICE] EUROS per SMS + price of one SMS [cuc e-mail]" or "[PRICE] € per SMS + price of one SMS"

"This is not a subscription"

Other services such as SMS chat, SMS games, polls, dedications, SMS2TV, SMS2Radio: MT messages must include only the price of the service

Example:

"Merci por ton message. (1.50 EUR + prix sms)"

English translation:

"Thank you for your message. (1.50 EUR + price of SMS)"
